Fork Lift Truck Operation for the Experienced Operator (Conversion) CB to Reach ; Reach to CB

This course has been approved by ITSSAR and meets the requirements of Regulation 9 of the Provision and Use of Work Equipment Regulations 1998.

The course is tutored by trained and certificated instructors and is validated by means of a competence test.

The course is designed for operators who have successfully passed a Basic Training course on either a Counterbalance or Reach truck and hold a current certificate.

Course Content

- Pre-Use Checks
- Daily inspection and maintenance
- Load handling in racking
- Vehicle loading & unloading
- Stacking & de-stacking at ground level, eye level and high level in confined spaces
- A theory test
- A practical test

Learning Objectives

- To operate the truck safely
- To stack and de-stack a wide variety of loads under various conditions
- To be aware of the capabilities and limitations of the truck
- To carry out daily & weekly maintenance routines
- To know the hazards of fork lift truck operation and how to eliminate them

Course Duration

1 Day
